

Our Story

In 1896, Augustana Care was founded to meet the growing needs of Minneapolis' Lutheran community. Since then, we have expanded to serve the broader community from locations in downtown Minneapolis to other communities in Minnesota and Colorado—and from a base of skilled nursing facilities to transitional care, memory care, assisted and independent living communities, adult day services, rehabilitative therapy and home modification services.

Augustana Care is dedicated to helping those we serve to live the lives that most inspire them. Our guiding principles are to value older generations' talents and experience; provide the care residents need, when and where they need it; connect residents to people and things that mean the most to them and to support residents and families with spiritual care that speaks to who they are.

Looking Ahead

Augustana Care serves as a leader in eldercare by sharing best practices for a variety of partners and service providers. As we look to the future, we will continue to leverage new technologies and innovative practices to best serve the needs of our aging population.
